The Hows & Whys of NH & VT Septic Systems
Sept 22 9:30-noon
Hartland Public Library - FREE
Everything you need to know about
your septic system
More info HERE

Dam removal on Mill Brook, just behind the fire station in Brownsville, will help flood resiliency in the next big rain event. TS Irene totally flooded the fire station and caused considerable damage both upstream and downstream from the dam. This project was made possible through an assessment grant from High Meadows and the Clean Water Act.

Linking Lands Alliance has earned a second grant from New Hampshire Charitable Foundation to continue and expand their educational program in selected schools. Learn more HERE (ONRCD fiscal sponsor)

White Hickory
Tussack moth caterpillars

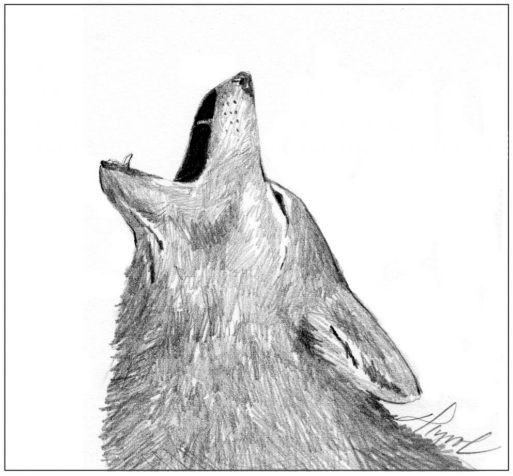
Tent caterpillar nests have shown up along roads in Vermont.

This little guy, while cute and fuzzy, can cause allergic skin reactions to those that touch it. Learn more HERE

Black River Action Team BIOBLITZ
Springfield residents, guided by experts, enjoyed exploring the town's new Mjuckross State Park. Over 114 species were recorded and can be found HERE

Bridgewater Fire Dept BBQ

ONRCD hosted the stream table to demonstrate river dynamics to landowners who experienced first hand what TS Irene did to their town. Dick McCormack was one of the visitors to the table and discussed flood resiliency measures for the town. Learn more about the stream table by contacting ONRCD



BECOMING WOLF

Wild canid ecologist Chris Schadler of Project Coyote discusses the fascinating ecology and surprising behavior of the eastern coyote, and how we can coexist. View HERE

Farm Tour October 4th 10-noon

Clough Dairy Farm

480 Brown Drive, South Ryegate, VT

This is great for those interested in learning about improved manure pits, barnyards, laneways, and river corridor easements. It's free and you'll get two hours of education credits to satisfy your Certified Small Farm requirements! More info, contact Marina
